

Application Workshop Summary

Are you looking for a job or envisioning a career path with strategic progression and advancement?

<i>General questions to consider before applying for an international tech position:</i>	<i>Technical questions to consider before applying for an international tech position:</i>
<p>Yourself:</p> <ul style="list-style-type: none"> • Am I prepared for the challenges of living abroad? • How will the move impact my family and personal life? • How will I manage finances and unexpected expenses? <p>Company:</p> <ul style="list-style-type: none"> • Is the position remote, hybrid, or on-site? • Am I proficient in the primary language? • Do the company's values align with mine? • What are the specific job responsibilities and expectations? <p>Country:</p> <ul style="list-style-type: none"> • What are the visa and work permit requirements? • What is the cost of living and available amenities? • How do job opportunities compare to my current location? 	<p>Yourself:</p> <ul style="list-style-type: none"> • How adaptable am I to diverse work cultures? • Am I equipped for remote collaboration and communication? <p>You & Company:</p> <ul style="list-style-type: none"> • Is my skill set aligned with the company's technology stack? • Am I proficient in the programming languages, frameworks, version control systems, and collaboration tools used? • Do the company's technical challenges match my expertise and interests? <p>Company:</p> <ul style="list-style-type: none"> • Are there opportunities for learning and professional growth? • What are the company's expectations for work-life balance? • How does the company prioritize code quality and scalability?

What to look for in a job position before applying?

- **Know Your Preferences:** Define what type of company, industry, and team you prefer.
- **Target Relevant Roles:** Apply for positions that match your skills and career goals.
- **Research Companies:** Investigate potential employers thoroughly before applying.
- **Apply Wisely:** Only apply to roles that align with your interests and qualifications.
- **Choose Compatible Companies:** Select organizations that align with your values and principles.
- **Customize Your Resume:** Tailor your CV for each application to highlight relevant experiences.
- **Explore Preferred Companies:** Identify companies you admire and check their job openings.
- **Understand Company Values:** Assess if a company's values match your own aspirations.
- **Engage on LinkedIn:** Connect and interact with company representatives for networking and visibility.

Apply when:

- **Required Technical Skills:** Specific competencies in programming, frameworks, databases, and tools.
- **Qualifications and Education:** Education, certifications, or training match job requirements.
- **Years of Experience:** Preferred industry experience level.
- **Responsibilities and Duties:** Understanding primary tasks, projects, or focus areas.
- **Technical Environment:** Ability to assess technology stack, methodologies, and deployment.
- **Soft Skills and Attributes:** Demonstrate communication, teamwork, problem-solving, and adaptability.
- **Project Requirements:** Review project objectives, deliverables, and past experiences.
- **Company Culture and Values:** Align with the company's culture, values, mission, and vision.
- **Location and Work Arrangements:** Consider job location, hours, and flexibility.
- **Career Development Opportunities:** Pursue growth, advancement, and mentorship within the organization.

Do NOT apply or reconsider the timing:

- You don't speak the company's language
- You lack specific technical skills
- You don't meet minimum qualifications or educational requirements
- You have insufficient experience for the preferred level
- You're uncomfortable with primary responsibilities or tasks
- You're unfamiliar with the technical environment
- Your soft skills don't align with job requirements
- You can't fulfill specific project requirements or past experiences
- You don't resonate with the company culture, values, mission, or vision
- Job location, hours, or flexibility don't suit your preferences
- You see limited career development opportunities within the organization

Keywords on a CV & Job Description:

Use AI to identify and prioritize keywords in the job description. Adapt your CV to highlight these key terms, emphasizing those most important for the role.
